

# Passive Components

*The MIC360° passive components have been developed for high quality broadband applications.*

We have now introduced components supporting up to 3.8 GHz (marked in grey).

| Product type  | Description    | Article No  | Frequency range |
|---|----------------|-------------|-----------------|
| <b>Tappers</b><br><br>    | Tapper 4.8dB   | 456 001 404 | 380 - 2700 MHz  |
